Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 April 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

1. This action is in response to applicant's remarks received on 04/25/05.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 58-63 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hartbauer et al. in view of Morizzo.

Hartbauer discloses (Fig. 1-12) the invention substantially as claimed including a chassis 10, a detection system (42, 104 and 106) responsive to an absence of paper in the lower roll, as seen in figure 12, a transfer mechanism having a transfer bar 118 and a transfer link 124; an actuator 28A and a spring 126. Hartbauer does not show a control means and a motor. However, Morizzo teaches the use of a control means 108 and a motor (see col. 13, line 5-6) for the purpose of obtaining automatically controls all apparatus operations. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified Hartbauer's device by providing the control means and the motor as taught by Morizzo in order to obtain device that automatically controls all apparatus operations reducing the waste material.

Response to Arguments

4. Applicant's arguments have been fully considered but they are not persuasive. Applicant argues that Hartbauer does not show a detection system for detecting an absence of a sheet material within a feed mechanism. However, Hartbauer teaches a detection system (42, 104 and 106) for detecting an absence of a new sheet material within a feed mechanism. Applicant argues that Morizzo does not provide motivation to combine. However, Morizzo discloses the motivation to combine in the abstract, lines 18-19. Also, Morizzo discloses control means 108 for activating a transfer link (260 and 268) for moving the web *M* between a feed nip (see Fig. 12) by fingers 275.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
